

Green Apple Case

by Computer Harmony, Inc.

for iPod Nano

You just said Goodbye to Forever Plastic.

Thank You for purchasing a Green Apple Case by Computer Harmony, Inc. We understand you must feel as strongly as us in reducing plastic pollution. Included here are some tips for the best use of your new case. If you have any questions or comments on our product, please contact us.

Please be on the look out for additional products by Computer Harmony - all earth friendly, of course! If you'd like a case for your electronic device, or you have a suggestion for a new product, please let us know!

Installation

1. Insert your iPod into the Green Apple Case from the bottom opening, guiding the case over the screen bottom
2. The iPod should lock into place and the case should feel snug with a secure fit
3. Enjoy Your Green Apple Case!

Removal

1. Hold the case upside down in your palm with the screen facing up
2. Squeeze open the 'mouth' of the case using your index finger and thumb
3. With your other thumb, Push the top of the case against the iPod through the 'mouth'
4. Once started, the case will remove easily by pushing the iPod through the screen opening

Proper Green Disposal

- ▶ Please do not just trash the case when finished - remember, a landfill is not a compost environment!
- ▶ To properly dispose, just include the case with the rest of your compost, or bury the case in fertile soil. With the proper conditions, it will 90% decompose within 80 days
- ▶ No harmful residues will be left by either the plastic or the pigments used.
